Subject: DRAFT Letter of Interest for Arnold Foundation RFP

Attachments: Letter of interest Arnold Foundation DRAFT.docx
Prosecutor-RFP-Solicitation-Final.pdf

Good morning,

I am attaching a draft of the Letter of Interest for the Arnold Foundation grant funding we have been discussing. The limit is 3 single-spaced pages, so this will be cut down to allow for Angela's sections. (This is currently 2.5 single spaced pages, but I have double-spaced it for ease of reading.) Please review. If you see anything you think is glaringly absent, please advise, understanding that more will have to be cut out. The focus of their review at this stage, however, is these two sections, so they do need more space devoted than the study design or randomized control study plan (they recognize this will be more developed later).

We need to discuss the concerns Angela has raised about how to properly measure this with the two initiatives both part of plan. Angela also has a draft of the study design which is itself about 3 pages with questions we need to resolve and then have summarized for purposes of the LOI. The more detailed document, once we discuss and finalize, will be used for the proposal, if we are invited to submit.

Also attaching a copy of the RFP for your convenience—we are the second part of the proposals as this is not a randomized study.
